In-House CNC Machine

Where Traditional Craftsmanship
Meets Cutting Edge Technology.

SawBlade Millworks utilizes the latest computer aided design and manufacturing technology to provide unparalleled quality with precision. Our in-house CNC Machine, CAD Design and 3D modeling systems allow us to prototype, design and produce custom millwork projects with incredible efficiency and to exacting standards.

Our team of Craftsmen marry their decades of traditional wood working skills & experience with these advances in technology to produce simply beautiful millwork products of the highest quality.

Professional Partnerships

We provide comprehensive support to General Contractors, Builders, Architects and other building professionals. From planning and design through to final installation, we work alongside our clients to ensure that projects are completed on time and to specification.

Furniture Component CNC Manufacturing

Allow SawBlade Millworks to handle the production of individual CNC machined components. All manufacturing is completed in-house in Las Vegas, saving you time and money while providing the opportunity to ensure quality by working with a local partner.
